

Suhl,

Confirmation of the application of devices and storage media, which can be used for the reproduction of protected works

Dear,

You purchase products from us which, according to legislation, it is mandatory to provide remuneration for, as per Section 54, UrhG [Copyright Law].

*The wording of the law is as follows
Section 54, UrhG Obligation to provide remuneration.*

(1) If it is to be expected, according to the type of work, that it will be reproduced as per Section 53, paragraphs 1 to 3, then the copyright owner of the work has a claim to the payment of suitable remuneration from the manufacturers of devices and storage media, which are used alone or in connection with other devices, storage media or accessories to make these reproductions.

(2) The claim as per paragraph 1 does not apply, if it can be expected, according to the conditions, that the devices or storage media will not be used for reproduction purposes in the area of validity of the law.

The claims are asserted by collecting societies (ZPÜ).

If you do not use a product to reproduce copyrighted work as per Section 54, UrhG, please hand us back the following confirmation, completed and signed. Only if we have your confirmation can the calculation of the copyright fees be omitted. It is not possible to reimburse copyright fees that have been already paid.

An across-the-board release from the obligation to provide remuneration for a product is not possible. In your confirmation, please enter the quantity and/or period of application for each individual product.

We have to submit this confirmation on the request of ZPÜ.

Yours sincerely,
CDA GmbH

Confirmation about the use of devices and storage media which could be used for the reproduction of copyrighted work

We hereby confirm that we shall not use the following products - in the areas of validity of this law - for the reproduction of copyrighted works as per Section 54, paragraph 1, UrhG.
We agree to this confirmation being transferred to the collecting societies.
